TIPS TO MAKE SCHOOL BAGS LIGHTER

GET THE RIGHT BAG !

SUGGESTED BAG SIZE: Up to 1.0 kg

Length 13" × Breadth 10" × Depth 5"

- ❖ Pick a backpack made of light weight material.
- ❖ The straps of the backpack should be wide and padded. They should be adjusted in such a way that the wide part coincides with the shoulder.
- ❖ The height of the backpack should not exceed 4 inches below the child's waistline.
- ❖ A waist – clip in the bag can help position the bag close to the child's back.
- ❖ The straps of the backpack should be evenly spaced so that they do not dig into the child's shoulders.
- ❖ Avoid a school bag with wheels as it is heavy.
- ❖ Remember, when it comes to choosing the right backpack for kids, take comfort into priority over brand, fashion and glamour.
